Espresso Based 60

Illy was founded by Francesco Illy (Illy Ferenc in Hungarian), born in Temesvár in the Austria-Hungary Empire, now Timisoara, Romania. Illy later moved to Trieste during World War I as an officer in the army. After the war, he remained in Trieste, which had recently come under Italian rule, and in 1933 set up a cocoa and coffee business, eventually concentrating on coffee. Focusing his interest on espresso, in 1935, Illy invented the first automatic coffee machine, which substituted compressed air for steam, marketed as the illetta, the predecessor of contemporary espresso machines.
